

**Tough Talking From The Right**

For more than ten years *Tough Talking from the Right* (TTFTR) has campaigned -

- Against the MacPherson report
- Against the Patten Report
- Against the Human Rights Act and ECHR
- Against the International Criminal Court
- Against Identity Cards
- Against the many breaches of the principle of equal rights for all but special privileges for none
- Against homosexual 'marriage'
- Against the appeasement of terrorism
- Against climate change scaremongering
  
- For better and more democratic government in Ulster
- For the death penalty, highlighting the good work done by many Americans on this issue and also by Christian groups in countries like Botswana and regions like the British Caribbean
- For a better historical understanding of the British Empire
- For a return to a leadership in the Conservative Party which embraces Traditional Conservative and Unionist principles
- For a substantial reduction in immigration and a saner immigration policy based on national needs
  
- TTFTR has promoted the work and literature of many other individual Conservatives and like-minded groups (please see the book list which is available on request)
- TTFTR has also provided a regular diet of political news from the British nations overseas as too much of our news is about the EU and the USA

If anything in the list above is of especial interest to you please let me know - *Allan Robertson* (Editor)
